EDUCATION

Coventry University, UK (Delivered at Softwarica College, Nepal) <i>BSc (Honors) Ethical Hacking and Cybersecurity</i>	Gyaneswor, Kathmandu <i>Sep. 2022 – Sep 2025</i>
Oxford College of Engineering and Management <i>Computer Science</i>	Gaidakot, Nawalpur <i>April. 2018 – April 2020</i>

EXPERIENCE

IT Operations <i>Bishal Homecare Industries</i>	Nov 2025 – Jun 2026 <i>Rajahar, Nawalpur</i>
- Managed all IT operations including hardware maintenance, software installation, and network troubleshooting - Performed daily data entry for sales, inventory - Maintained digital records and ensured accurate data backup for all financial and operational documents	

TRAINING & PROFESSIONAL DEVELOPMENT

Red Team Leaders	
Certified Red Team Operations Management (CRTOM)	Jul 2026
Certified Threat Intelligence & Governance Analyst (CTIGA)	Jul 2026
Certified Cybersecurity Educator Professional (CCEP)	Nov 2025
Certified LLM Security Professional (CLLMSP)	Aug 2026
Certified LLM Security Expert (CLLMSE)	Aug 2026
Mastermind	
ISO/IEC 27701:2025 Lead Auditor	Jul 2026
ISO/IEC 27001:2022 Lead Auditor	Dec 2025
Hackviser	
Certified Web Security Expert (CWSE)	Sep 2025
Certified Associate Penetration Tester (CAPT)	Sep 2025
Certified Cybersecurity Foundations (CORE)	Jul 2026
International Cyber Threat Task Force	
Certified Ransomware Protection Officer (CRPO)	Jan 2026
Hack & Fix	
Certified Phishing Prevention Specialist (CPPS)	Dec 2025
CSI Linux	
CSI Linux Certified Investigator (CSIL-CI)	Aug 2025
Security Blue Team	
Blue Team Junior Analyst (BTJA)	Oct 2024
The SecOps Group	
Certified Network Security Practitioner (CNSP)	Jan 2025
SkillFront	
ISO/IEC 27001:2022 Information Security Associate	Apr 2025
arcX	
Cyber Threat Intelligence 101 (CTI 101)	Nov 2024
CyberWarFare Labs	
Certified Red Team Analyst (CRTA)	Sep 2026

PROJECTS

</

Vulnerable Lab Environment | *Ubuntu Server*

- Built a deliberately vulnerable lab environment on Ubuntu Server with misconfigured services
- Created security flaws and challenges for others to practice penetration testing

E-Commerce Site | *PHP, MySQL, XAMPP, Apache*

- Developed an e-commerce website with product catalog, shopping cart, and order management
- Implemented admin panel and user authentication system as a college project

Phishing Detection ML | *Python, Machine Learning*

- Built an ML-based email monitoring system to detect phishing attempts
- Implemented human-in-the-loop feedback mechanism for continuous improvement

Hash-Gen | *C, Cryptography*

- Implemented SHA-256, MD5 hashing, and AES-128 encryption in C
- Built for learning cryptography fundamentals and algorithm implementation

Web-Recon-GUI | *Python, GUI*

- Built a GUI-based web reconnaissance tool for web-based recon
- Automated information gathering for bug bounty and security assessments

EncDec | *Python, GUI*

- Built a GUI-based encoding and decoding tool supporting Base64, Hexadecimal, ROT13, Binary, URL encoding, Morse code, and A1Z26
- Created an intuitive interface for converting data using various cryptographic and encoding techniques

TCP Port Scanner | *C, Networking*

- Built a TCP port scanner in C for network reconnaissance
- Developed to learn socket programming and network security concepts

Hospital GRC Audit Study | *ISO 27001:2022*

- Conducted a GRC audit of a hospital based in Kathmandu through surveys, interviews, and on-site observations identifying critical gaps in incident response
- Delivered a prioritized risk treatment plan with actionable recommendations, and a roadmap toward ISO 27001 certification

eaxd0rk3r | *Python, Google Dorking*

- Automated Google Dorking for bug bounty hunting and vulnerability discovery
- Created custom search queries to identify exposed web applications and data

ACHIEVEMENTS

Hackviser #1 globally achieved on 29/11/2025

Recognition for responsible disclosures (10+ organizations)

Merit-based scholarships throughout undergraduate program based on academic performance

TECHNICAL SKILLS

Languages: Python, C, SQL, Java, JavaScript, HTML/CSS, Bash

Frameworks & Libraries: Flask, WordPress, Scikit-learn, Pandas, NumPy

Platforms & Tools: Kali Linux, Windows Server, VirtualBox, Cisco Packet Tracer, Git, VS Code

Offensive Security & Pentesting: Burp Suite, Nmap, Wireshark, Metasploit, John the Ripper, OWASP ZAP, SQLmap, Nikto, Gobuster, Nessus, Acunetix, OpenVAS

OSINT & Reconnaissance: theHarvester, Maltego, Shodan, Google Dorking

Operating Systems: Linux, Windows

Security Frameworks & Compliance: ISO 27001, ISO 27701, NIST CSF, DORA, COBIT, MITRE ATT&CK
